

May, 24 - 27, 2011

City Hall Aschaffenburg, Germany

Brazilian Automotive Delegation at SafetyWeek 2011

Welcome to SafetyWeek 2011

Knowledge, Innovations and Networks

Like nowhere else the SafetyWeek is the place where the full spectrum of **active and passive automotive safety** is presented. The unique combination of knowledge congress, thematic events and trade show brings participants and visitors up-to-date in the latest developments and technologies. Both on **safety products and systems** as well as on **enabling technologies** for the development.

The Success Story

Active and passive Safety with depth

Only at SafetyWeek everything is centered around automotive safety:

-  **SafetyUpDate**
the 9th Knowledge Congress for Automotive Safety
-  **SafetyExpo**
Trade Show for Active and Passive Safety
-  **Forum Driver Assistance Systems**
Systems for Frontal Collision Mitigation
-  **PAM-CRASH Forum 2011**
Virtual Performance Solutions
-  **Human Modelling and Simulation in Automotive Engineering**
State of the Art in Human Body Models
-  **CrashTesting 2011**
Innovations from the Leaders in Crash and Safety Testing Technology
-  **Humanetics Dummy Forum**
Advances in Dummy Technology

SafetyWeek 2011

The meeting point for the automotive safety world

The thematic events of the SafetyWeek are visited by more than 1.000 experts every year. The events are grouped by themes to allow the visitors to get the most benefit out of their time at the SafetyWeek.

Dienstag 24. Mai	Mittwoch 25. Mai	Donnerstag 26. Mai	Freitag 27. Mai
	SafetyUpdate	SafetyUpdate	
	PAM-CRASH Forum	PAM-CRASH Human. Model.	Human Modeling
CrashTesting Forum	Humanetics Dummy Tech.		
	ISO 26262	Kooperationsf. Fahrerassistenz	
	SafetyExpo		

The Networking Platform

The meeting point for the automotive safety world

Partner Country 2011: Brazil

carhs.training in cooperation with FLV is organizing a business delegation trip for a group of Brazilian safety experts. Brazil has a high demand for safety knowledge and technologies due to the new safety legislation and the introduction of Latin NCAP in 2010.

State-of-the-art at SafetyWeek and more

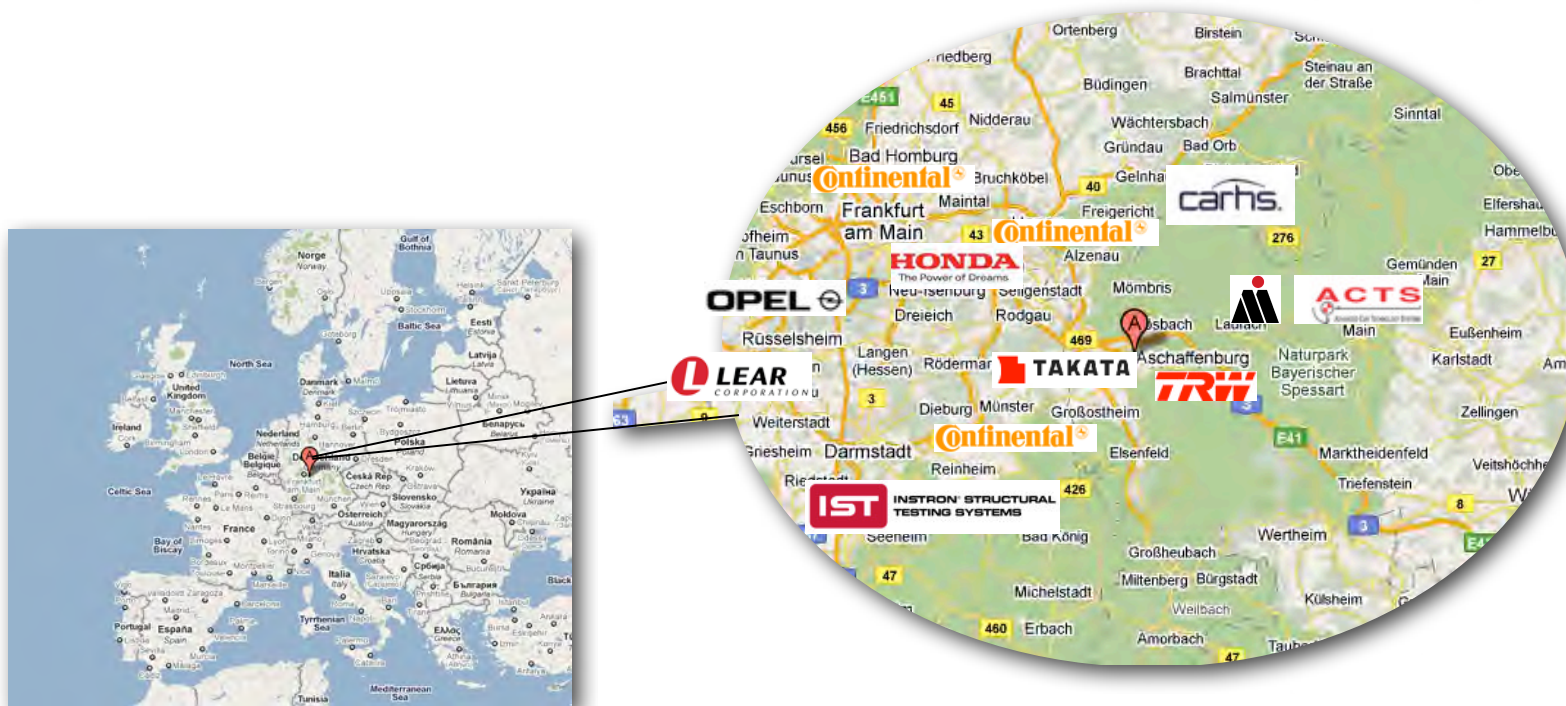

Besides the events at safety week, we have organized additional meetings at:

- FrankfurtRheinMain - Presenting the city of Frankfurt
- Simulation in safety development at TECOSIM
- One-to-One Safety Supplier Technology Meetings

SafetyWeek 2011

Right in the heart of the automotive safety industry

Aschaffenburg has gained global recognition in safety due to many of the leading safety organizations who are located in or around Aschaffenburg.
